

Year 5 Newsletter

Welcome back, we hope you have had a lovely Summer break.
Our new research project is based around World War Two

History

This is an exciting project and we will be asking questions about how people lived. Children will have the opportunity to look at timelines and conduct their own research into various aspects of Anne Frank's life. In order to bring this learning to life, we are hoping to visit the Air Raid Shelters in Stockport.

Religious Education

We will be following the Stockport R.E syllabus and have in depth discussions based around beliefs, and why some people believe that God exists.

UNICEF

As a class, the children have written their very own Class Charter

English

This half term we will be looking at diary writing. The text that we will be studying is

The Diary of Anne Frank.
Children will be learning the spelling, punctuation and grammar rules which are relevant to basic sentence structure, diary writing, letter writing and poetry.

Spellings are provided half termly and are tested each Friday.

Reading records are to be completed by the children or an adult as frequently as is appropriate, but at least twice weekly.

Maths

Learning this term is based around reviewing and extending our knowledge of place value, place value with decimals, rounding, Roman numerals, column addition, subtraction, multiplication, factors of 2 digit numbers, time and equivalent fractions.

Please remember to practise times tables with your child. (Year Five children should already know multiplication and division facts for all multiplication tables up to 12x12.)
Asking the children questions about the time from analogue and digital clocks, will also help embed this skill.

Science

This half term we will be studying forces, such as gravity, friction, air resistance and water resistance.

Next half term we will be looking at properties and changes of materials.

Through these sessions we will be looking at dissolving and separating solutions by investigating how to separate mixtures by filtering, sieving and evaporating.

Homework

Homework is given out on a Friday and is to be returned the following Wednesday Children will usually receive a piece of English and a piece of maths homework. Should you wish to contact either of us please feel free to speak to us before or after school or email: amanda.weate@cheadle-pri.stockport.sch.uk
claire.pickering@cheadle-pri.stockport.sch.uk

PE

During this half term children will be taking part in athletics and dance.

Please ensure full PE kits are in school and clearly labelled.

Music

The children will be studying music via the Charanga scheme

Computing

We will be using the internet and recognising the opportunities it offers for communication, collaboration and research.

We will also be continuing to discuss the importance of E-Safety.

French

The children will begin working through the next module of Nouveau Rouge.

They will be also revising how to say their names, numbers, days of the week, months of the year and asking and answering questions and using adverbials – all in French!
